Checking In

- All first time visitors are required to fully complete a liability form. This is for our records and insurance. It is not shared with any third parties. You will need a valid, government issued identification.
- First time visitors are given a range safety briefing to read and review. Ensuring your safety on the range is at the center of what we do. Questions are welcome.
- We have a variety of firearms for rent and will pair you with a gun that's comfortable to shoot. Experience, interest, and "feel" are all taken into consideration.
 - Pistols cost \$10
 - Rifles are \$15
- Our selection of targets are \$1 each. You are welcome to bring your own, provided they meet with our standards outlined in the range safety briefing.

On The Range

- Once you enter the actual range, the range safety officer will greet you and direct you to your lane. They are happy to assist you and will answer any questions.
- There is no such thing as a "stupid question" on the range.
- If you're sharing the range with other guests who are using a larger caliber firearm or rifle, it can be stressful. This is not unusual. In most cases, you'll grow accustomed to it and be able to focus on your own shooting.
- Range time is set at 65 minute increments. This allows time to set up and break down.
- Range Safety Officers (RSO's) are there to make sure everyone is operating safely and having a pleasant experience. While they can provide assistance, sometimes the most helpful thing is to book a private lesson.
